The Group is pleased to announce that in the year to 31 December 2008, profit and cash generation were ahead of management expectations. The full results for the 2008 financial year will be announced following the annual audit.

Frank Beechinor of OneClickHR, commented:

“We are delighted to add these prestigious blue chip clients to our ever-increasing client base and are especially pleased to report our largest ever SaaS agreement with Hilton Hotels. This underlines the growing acceptance of the software rental model and provides a contracted revenue stream for the Group in the future.

During the last year we have focussed on increasing both the customer list and the financial strength of the Group and this strategy is reaping dividends as we can report that the Group’s profit and cash generation have surpassed expectation.”
